

**Amendments to the Specification:**

Please replace the paragraph beginning at page 10, line 8, with the following rewritten paragraph:

In addition to being directly connected to a PSTN 360 ~~[[180]]~~, a GSM radiocommunication system 300 can also be connected to a PSTN 360 ~~[[310]]~~ through the Internet as seen in Figure 5. Therein, the GSM system 300 is connected (via an NAS and voice gateway) through an Internet service provider 310 to the IP backbone or Internet 320. In addition to PSTN 310, the Internet 320 is also connected to a corporate LAN 330 to provide a further example of the types of systems over which information may be conveyed between two (or more) terminal devices according to the present invention.
